

Arthrex Once Again Named to Best Workplaces in Manufacturing & Production™ List

We are pleased to share that Arthrex has once again been named among the [Best Workplaces in Manufacturing and Production™](#) by Great Place To Work® and *Fortune*.

Best Workplaces in Manufacturing and Production rankings are determined by responses to the previous year's Great Place To Work survey, and this distinction is just one of many Great Place to Work awards and recognitions Arthrex has received already this year.

“The fact that this is the 10th time Arthrex has been named on this list is a testament to the entire team and their commitment to living Arthrex’s values each day,” said Senior Director of California Operations Bryan King. “Even with the addition of new facilities, new products and new team members, we remain steadfast in upholding our core value of Making People Better.”

Vice President of Manufacturing Andy Owen commended President and Founder Reinhold Schmieding for his commitment to building Arthrex products in the United States and thanked employees for their dedication to Arthrex’s mission of Helping Surgeons Treat Their Patients Better®.

“Reinhold set the tone for Arthrex’s culture at the very beginning, and that founding sense of purpose and drive is still reflected in everything we do,” he said. “Even with our rapid growth, the Arthrex culture remains the core of our success.”

“This is, once again, a proud moment for our entire team,” said Director of Human Resources for Arthrex Manufacturing Inc. Melanie McLane. “Our Manufacturing employees are deeply committed to bringing Arthrex innovation to life by building high-quality medical devices. As our organization continues to grow, so does our dedication to fostering a top-tier culture – one where every employee feels valued, supported and Arthrex Proud.”
