

GOVY AirCab Makes Global Debut, GAC Unveils "Land-Air Matrix" at 2025 International Automotive & Supply Chain Expo (Hong Kong)

HONG KONG, June 13, 2025 /PRNewswire/ -- On June 12, ABC made a strong appearance at the 2025 International Automotive & Supply Chain Expo (Hong Kong), showcasing eight flagship models across its three major product -brands: GAC, AION, and HYPTEC. Simultaneously, GAC unveiled "Hong Kong Action" - the localized implementation of its "One GAC 2.0" global strategy in Hong Kong, and announced the global debut of its first mass-produced flying car – GOVY AirCab, along with the Hong Kong debut of the global premium compact model, the AION UT. At the press conference, Feng Xingya, Chairman and President of GAC Group, and Wei Haigang, President of GAC INTERNATIONAL, were joined by prominent political and business leaders from Hong Kong to witness the historic moment. After visiting the booth, they expressed strong praise for GAC.

At the Bangkok International Auto Show in March, GAC launched its "One GAC 2.0" globalization strategy, "Thailand ACTION". GAC aims to boost brand presence, sales, and brand awareness across the Asia-Pacific region. This also marks the official launch of GAC's global localization initiatives. In May 2025, the GAC Indonesia Smart Factory commenced operations. The "Hong Kong ACTION" initiative, tailored for the Hong Kong market, establishes a comprehensive presence across products, channels, services, energy systems, and mobility ecosystems.

Regarding product strategy, the **AION UT**—featuring a stylish design, spacious interior, and high intelligence—is set to go on sale in Hong Kong in the second half of the year. For channels, GAC plans to expand its retail channel network by adding one service center and one showroom in Hong Kong by 2025. For services, GAC will offer the "*Hong Kong-Mainland Permit*" service to meet consumers vehicle usage needs across both regions. Furthermore, GAC plans to build 300 ultra-fast charging stations in Hong Kong and is advancing cooperation with ONTIME Mobility to deliver a more convenient mobility ecosystem in Hong Kong by 2028.

- A major highlight of the event was the global debut of the GOVY AirCab — one of the world's first multirotor flying vehicles to enter mass production. Trial operations are expected to begin this year in the Guangdong-Hong Kong-Macao Greater Bay Area, with customer deliveries scheduled by the end of 2026.
- Moving forward, GAC will leverage Hong Kong as a pivot to continuously advance its globalization strategy, focusing on quality, technology, service, and the industry chain ecosystem, aiming to deliver excellent mobility experiences to consumers.

DEWALT® Releases New Grinders and Metal Cutting Circular Saw

TOWSON, MD., Feb. 20, 2025 – DEWALT, a Stanley Black & Decker (NYSE: SWK) brand and leader in total jobsite solutions, today announced the new 60V MAX* Side Handle Detect Small Angle Grinder (DCG418SHD), 20V MAX* Brushless Cordless 4 1⁄2-In. Grinders (DCG407 Slide-Switch and DCG408 Paddle-Switch) and 20V MAX* XR® 7 1⁄4-In. Metal Cutting Circular Saw (DCS383) each delivering a powerful performance in a wide range of cutting and grinding applications.

60V MAX* Side Handle Detect Small Angle Grinder (DCG418SHD):

As part of the PERFORM & PROTECT™ lineup, this tool is equipped with a variety of control features including a built-in trigger timer and integrated side-handle detect system requiring both hands to operate. It also features an anti-rotation system that senses rotational motion of the tool and shuts down if the motion is excessive. Equipped with a 13-amp brushless motor, the grinder delivers a maximum no-load speed of 9,000 RPM and 2,400 MWO provides up to 30% more power than the corded DWE43114N grinder**.

20V MAX* Brushless Cordless 4 1/2-in. Grinders (DCG407 Slide-Switch; DCG408 Paddle-Switch):

Available in both slide-switch and paddle-switch versions, this grinder is equipped with overload protection, accommodating 4 1/2-In. wheels and includes both a Type B guard for grinding and a Clip-On Guard to convert the Type B guard for cutting operations.

20V MAX* XR® 7 1/4-In. Metal Cutting Circular Saw (DCS383):

Take on tough applications with our most powerful 20V MAX* metal cutting circular saw†. The 20V MAX* XR® 7 1/4-In. Metal Cutting Circular Saw features a lightweight design and delivers up to 1,400 MWO of power to help maximize productivity on the job. This tool can complete a variety of applications with a 2 5/8-In. depth of cut and features an integrated chip collector to help maintain a clean work area.

The DEWALT 60V MAX* Side Handle Detect Small Angle Grinder (DCG418SHD), 20V MAX* Brushless Cordless 4 1/2-In. Grinders (DCG407 and DCG408) are available now, the 20V MAX* XR® Metal Cutting Circular Saw (DCS383) will be available spring 2025. All products are available as a bare tool or kitted, except of the [DCG408](#). To learn more about DEWALT products, please visit: www.dewalt.com.

** Maximum initial battery voltage (measured without a workload) is 20 and 60. Nominal voltage is 18 and 54 respectively.*

*** Using DCB609 battery (sold separately).*

†MWO using DCBP520 battery (sold separately).
